Differentiator

- Bedrock offers a range of services for clients in a range of industries that demand safety, competence, and cleanliness such as hospitals, high tech manufacturing, and government entities. Concrete sawing and drilling has been our primary service for many years. We have added structural and underground scanning, mapping, and analysis with ground penetrating radar (GPR). In addition, we perform excavation and concrete pouring as our customers require.

Core Competencies

- Ground Penetrating Radar (GPR) scanning
 - Structural investigation for reinforcing, voids
 - Underground locating and mapping of structures and utilities
- Core drilling
 - diameter < 1" to 48"
 - depth < 1" to 10+'
- Concrete cutting / sawing
 - wall saw: large openings
 - slab saw: interior trench, road sawing, bridge sawing
 - wire saw: large structures, bridge columns, dams
- Excavation
- Concrete pouring (placing & finishing)
 - Sitework
 - Slabs & mechanical pads
 - Footings, foundations, & stem wall

Current & Past Performance

- Abernethy Bridge / I-205 Improvements
 - GPR scanning, hole drilling, dowel epoxying
- Port of Portland PDX TCORE airport remodel
 - GPR scanning, core drilling, large diameter core drilling, deep hole core drilling
- City of Portland Mt Tabor Reservoir repair
 - concrete sawing, concrete breaking, concrete pouring, concrete finishing
- Intel DIX new fab construction
 - GPR scanning, core drilling, concrete sawing
- Providence St Vincent Hospital Pharmacy:
 - GPR scanning, core drilling, concrete sawing
